Remember TRAIL-LINK doesn't fail.

DESCRIPTION	PAGE

BACKGROUND

Trail-Link is a family operated business established in 2004 when the members started developing products based on previous experience in the transport industry.

Trail-Link's product range started with the development of a high quality electrical suzi with moulded plugs and a universal catch assembly providing LOCK-IN of these connectors.

The range has since expanded due to industry demand to include plugs, sockets, harnesses and accessories which are now fitted as standard on leading OE brands.

Trail-Link's mission is to offer solutions for all electrical connector requirements. Our vision is to continue to do so.

Trail-Link is a registered Proudly South African company

SECTION 1
ELECTRICAL SUZIS

Trail-Link's electrical suzis are produced from high quality polyurethane, selected for its unbeatable wear-and-tear properties.

Our coils are weather, oil, grease, abrasion and UV resistant and have excellent recoil memory to reduce sag.

The impact resistant plugs are wired to their correct standard and are tested in production.

Our electrical suzis offer the ideal PLUG-IN & GO solution for any horse/trailer combination. The working lengths of the suzis range from 1.7m to 4.5m depending on the product.
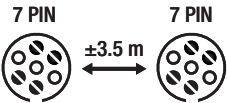

All Trail-Link coils, upon request, are available with anti-removal aid (ARA).

CONSTANT POWER BRAKING COILS

Trail-Link's Constant Power Braking Coils are produced from high quality polyurethane, selected for its unbeatable wear-and-tear properties. Our coils are weather, oil, grease, abrasion & UV resistant and offer excellent recoil memory.

ABS braking systems are now required by law on all new trailers – these coils come complete with the standard ABS/EBS plug & catch combination, and provide constant power from horse to trailer ensuring compliance.

All Trail-Link coils, upon request, are available with anti-removal aid (ARA).

SAFEGUARD YOUR SUZI COILS

TRAIL-LINK® CAN CONVERT YOUR FLEET TO UNDERSLUNG IN A FEW EASY STEPS

STEP 1 Tell us the current connector configuration behind the cab of the truck

STEP 2 Provide the required length to new coupling position behind fifth wheel

STEP 3 Provide your preferred new connector configuration for the underslung coupling position

STEP 4 Let us do the rest 😜

NOT ONLY CAN WE MANUFACTURE THE EXTENSION CABLES, WE ALSO HAVE THE CORRECT "SHORT-REACH COILS" FOR UNDERSLUNG APPLICATION

—— **AVAILABLE THROUGH ALL TRAIL-LINK® DISTRIBUTORS** ——

WE HAVE YOU COVERED - FRONT TO BACK!

UNDERSLUNG SUZI KIT

DETAILS

Trail-link's latest "ahead of the game" product is our new underslung suzi kit consisting of:

- 2 x Short-reach air coils (Part # 201-103 & # 201-203)
- 1 x Short reach ebs coil (Part # 101-903)
- 1 x Mini coil (Part # 100-703)
- 2 x Bracket assemblies (Part # USK-ASS)

Strategically placed behind kingpin and fifth wheel on interlink trailers, or behind 5th wheel of horse and kingpin of semi trailer configurations, ensuring limited swing on suzis and preventing suzi theft while on the run.
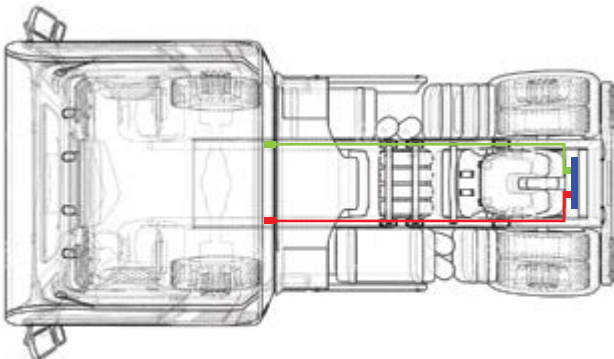

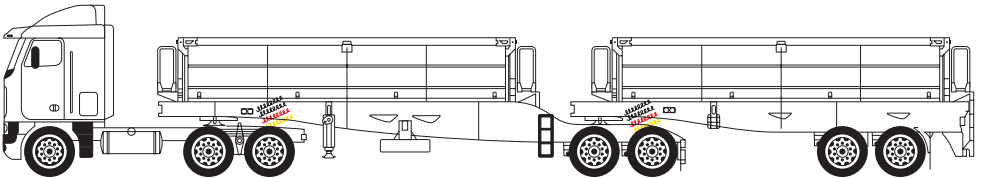

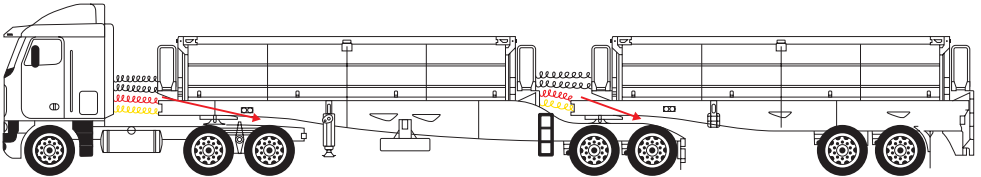

● EBS/ABS extension cable with moulded plug & socket

● Electrical extension cable with moulded plug & socket

● Bracket Assembly (Part # USK-ASS)

SECTION 4
PLUGS

Trail-Link's plugs are all supplied with correct pin position guidelines to ensure standard wiring and hassle-free connecting.

We provide u-connect versions of all the different plug standards used in South Africa.

U-CONNECT HIGH IMPACT TRAILER PLUG - PART # 500-102

7 PIN

SOUTH AFRICAN STANDARD		
CONTACT/FUNCTION	COLOUR	NO.
Left turn/Hazard	Yellow	1
Spare	Blue	2
Earth/Return/Ground	White	3
Right turn/Hazard	Green	4
Right tail/Number plate	Brown	5
Stop	Red	6
Left tail/Number plate	Black	7

FEATURES

- SA standard 7 Pin plug
- High quality, non-conductive plastic body

15 PIN PLUG – PART # 500-202ST

15 PIN

- Compatible mating coil (Part # 100-803-HY)

SECTION 6
HIGH AMP RATING/ MILITARY (NATO) SPEC PRODUCTS

Trail-Link specialty products designed for high amp applications, such as battery charging and tail-lift systems as well as military specific purposes.

TAILGATE/BATTERY SPIRAL COIL - PART # 100-123-4T

FEATURES

- Dual 2 pole cable
- Nominal wire sizes: 2 x 21 mm²
- Nominal AMP rating - 200 A Intermittent / 110 A Continuous
- Red = positive; Black = negative

TAILGATE/BATTERY SPIRAL COIL WITH 2 POLE PLUGS - PART # XIN-123-4T

FEATURES

- Dual 2 pole cable with plugs fitted
- Nominal wire sizes: 2 x 21 mm²
- Nominal AMP rating - 200 A Intermittent / 110 A Continuous
- Red = positive; Black = negative

TAILGATE/BATTERY SPIRAL COIL WITH 2 POLE MOULDED PLUGS - PART # XIN-123-4T-MLD

FEATURES

- Dual 2 pole cable with moulded plugs
- Functional bend restrictor
- Nominal wire sizes: 2 x 21 mm²
- Nominal AMP rating - 200 A Intermittent / 110 A Continuous
- Red = positive; Black = negative

2 POLE PLUG - PART # 500-2POL

FEATURES

- 1 x positive; 1 x negative pole
- Heavy duty metal body with spring guard
- Nominal AMP rating = 200 A Max

TRAIL-LINK®

2 POLE NATO BOOSTER PLUG - PART # 500-2P50

FRONT   BACK

FEATURES

- 1 x positive; 1 x negative
- 50 mm² contacts
- Nominal AMP rating = 115 A continuous (up to 300 A for 30 seconds)
- Also available with screw ring

2 POLE NATO BOOSTER SOCKET - PART # 600-2P50

FEATURES

- 1 x positive; 1 x negative
- 50 mm² contacts
- Nominal AMP rating = 115 A continuous (up to 300 A for 30 seconds)

SECTION 7
ANTI-KINK AIR COILS

Trail-Link's High Performance "small-coil" air suzis are manufactured from high quality polyurethane to provide:

- anti-kink
- anti-sag
- excellent memory

Other advantages include:

- high flexibility
- superior cold weather operation
- increased burst pressure

to ensure a longer service life and guaranteed improved performance.

HIGH PERFORMANCE PUR COIL (YELLOW) - PART # 200-103

FEATURES

- 5 m nominal working length
- ½ inch BSPT fittings with spring guards
- Temperature range: -40°C to 75°C
- Volvo OE spec

HIGH PERFORMANCE PUR COIL (RED) - PART # 200-203

FEATURES

- 5 m nominal working length
- ½ inch BSPT fittings with spring guards
- Temperature range: -40°C to 75°C
- Volvo OE spec

SECTION 7: ANTI-KINK AIR COILS

SHORT REACH PUR COIL (YELLOW) - PART # 201-103

FEATURES

- Short reach for applications with reduced swing - ideal for underslung use behind 5th wheel
- ½ inch BSPT fittings with spring guards
- Temperature range: -40°C to 75°C

SHORT REACH PUR COIL (RED) - PART # 201-203

FEATURES

- Short reach for applications with reduced swing - ideal for underslung use behind 5th wheel
- ½ inch BSPT fittings with spring guards
- Temperature range: -40°C to 75°C

TUV AIR COIL (YELLOW) - PART # 200-103-TUV

FEATURES

- 5 m nominal working length
- ½ inch BSPT fittings with spring guards
- Temperature range: -40°C to 75°C
- TUV certified

TUV AIR COIL (RED) - PART # 200-203-TUV

FEATURES

- 5 m nominal working length
- ½ inch BSPT fittings with spring guards
- Temperature range: -40°C to 75°C
- TUV certified

LONG REACH AIR COIL (YELLOW) - PART # 200-103-LT

FEATURES

- Working length: ± 4.5 m
- 1 m long tail for extended reach
- ½ inch BSPT fittings with spring guards
- Temperature range: -40°C to 75°C

LONG REACH AIR COIL (RED) - PART # 200-203-LT

FEATURES

- Working length: ± 4.5 m
- 1 m long tail for extended reach
- ½ inch BSPT fittings with spring guards
- Temperature range: -40°C to 75°C

SECTION 8
ACCESSORIES

Trail-Link's accessories have been carefully selected to add safety, convenience and value to towing & towed vehicles, both on the road and off.

UNIVERSAL CATCH ASSEMBLY (STEEL) - PART # 700-102

FEATURES

- Provides lock-in of 7 Pin connectors
- Easy installation
- Registered design
- Rust resistant
- Galvanised steel
- Fits behind existing socket (no need to disconnect wires)

UNIVERSAL CATCH ASSEMBLY (PLASTIC) - PART # 700-102-V2

FEATURES

- Provides lock-in of 7 Pin connectors
- Easy installation
- Registered design
- Fits behind existing socket (no need to disconnect wires)
- Additional holes to fit more types of sockets
- Flexible

SUZI SUSPENSION SPRING - PART # 900-102

FEATURES

- Assists on low mounting locations
- Supports coils to stay clear of chassis and propshaft
- Accommodates red, yellow & electrical coils
- Easy to install

BRACKET ASSEMBLY - PART # USK-ASS

PLEASE NOTE: Adapter plates sold separately
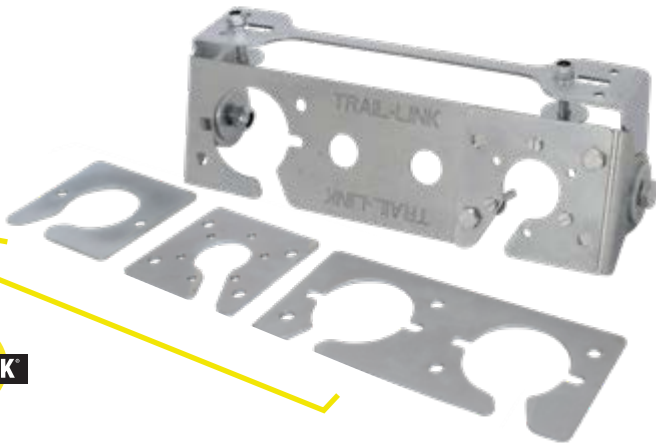

FEATURES

- 2 part assembly for easy installation
- Adjustable angle to protect suzi coils and hoses
- Modular system with **add-on adapter** plates (Part # USK-EUR / USK-7PIN / USK-EXT)
- Allows for extra connectors and custom configurations
- Registered design

13 PIN TO 7 PIN ADAPTER - PART # 600-802
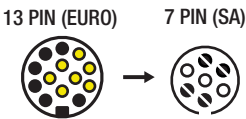

13 PIN (EURO)   7 PIN (SA)

FEATURES

- Plug & Play adapter
- Converts from 13 Pin EURO to 7 Pin SA

- Compatible with VW, Mercedes, Jeep, BMW and Audi etc.

7 PIN TO 13 PIN ADAPTER - PART # 600-112
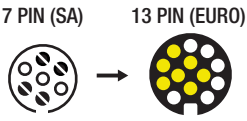

7 PIN (SA)   13 PIN (EURO)

FEATURES

- Plug & Play adapter
- Converts from 7 Pin SA to 13 Pin EURO

TRAIL-LINK
PERFORMANCE. QUALITY. RELIABILITY

PERFORMANCE. QUALITY. RELIABILITY

KINGPIN LOCK - PART # KPN-LOC-KA

FEATURES

- Theft deterrent
- Prevents unauthorized hooking of trailers
- Keyed alike
- Keyed differently available upon request

BACKUP ALARM - PART # BUP-ALM

FEATURES

- 12 V - 80 V
- High decibel output
- For use in safety warning systems eg. reverse buzzer

SECTION 9
LED LIGHT RANGE

Trail-Link's new-age LED lights (lights with a difference) possess impressive specifications along with high IP ratings and E-MARK certification.

In addition to the new age technology and excellent quality, they boast spectacular viewing effects.

Our range includes a variety of functional lights and a neon marker light range – never before seen in South Africa.

SECTION 9: LED LIGHT RANGE

MARKER LIGHT CLICK-IN SYSTEM

WHAT YOU NEED:

1 **Trail-Link Flat 2 core cable**
- Part # WAS-00.73.63 (1 m)
- Part # WAS-00.73.63-30M (30 m)

2 **Trail-Link Marker Light with special click-in connector tail**

Look out for this symbol to see our range of click-in lights

HOW IT WORKS:

1 Place the flat 2 core cable into the click-in connector

2 Place the click-in cap over the click-in connector

3 Pierce the flat 2 core cable into the click-in connector by pressing down on the click-in cap to secure the connection
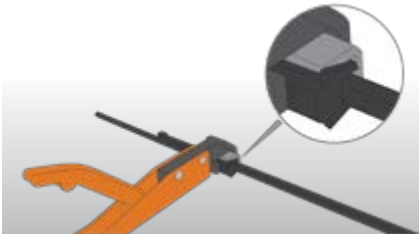

And voila!!
One straight power cable, to power multiple marker lights AND
We can make them flash!

- E-MARK approved
- Smart Polarity - connect any wire

PUSH-IN ABS WARNING LAMP - PART # WAS-668-GREEN

SHINES GREEN

FEATURES

- Warning lamp used for ABS trailers
- 12V-24V
- IP66/68
- New age design

- Easy to install (push-in fitment)
- No bracket or fasteners required
- Clear lens / green LED
- Recessed in chassis for added protection

HIGH POWERED LED WORK LIGHT - PART # WAS-684

1

2

FEATURES

- Rugged design
- Resistant to high and low temperatures
- High efficiency and output - minimum consumption

- With on/off switch *(1)* and adjustable bracket *(2)*
- Multi-voltage
- IP Rating: IP66/68
- E-MARK approved

REVERSE/INTERIOR LIGHT - PART # WAS-1083
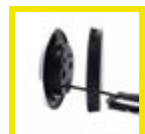

FEATURES

- Rugged design
- High efficiency and output - minimum consumption

- Multi-voltage
- IP Rating: IP66/68
- E-MARK approved

NUMBER PLATE LIGHT - PART # WAS-244

FEATURES

- Rugged design
- Multi-voltage
- IP Rating: IP66/68

- E-MARK approved
- Smart polarity - connect any wire

NUMBER PLATE LIGHT WITH BUILT-IN MARKER - PART # WAS-245

FEATURES

- Rugged design
- Built in marker light for added visibility
- Multi-voltage

- IP Rating: IP66/68
- E-MARK approved
- Smart polarity – connect any wire

MINI SQUARE 3-IN-1 COMBO LIGHT - PART # WAS-821

FEATURES

- Stop,Tail and Indicator
- Multi-voltage

- IP Rating: IP66/68
- E-MARK approved
